

Referencias Bibliográficas

En las siguientes referencias bibliográficas se indican mediante dos asteriscos aquellas publicaciones que han derivado directamente de la realización de la presente Tesis Doctoral.

La bibliografía que ha continuación se señala se ha clasificado en los siguientes cinco grandes bloques:

- Procesado analógico de la señal y filtrado en tiempo continuo.
- Dispositivos MOS, células MRC y estructuras multiplicadoras analógicas.
- Técnicas de sintonía automática.
- Filtrado con capacidades y corrientes conmutadas.
- Modelización de convertidores electrónicos de potencia.
