

The following table contains the details of the data that the external assessor has provided to the author, specifying if the price of some components of the offshore wind farm have also been supplied or not:

Concept	Decision	Price
General situation of the offshore wind farm	Delimitation of the allowed installation area, UTM coordinates of the area which contained the offshore wind farm	NO
General wind resource at the candidate site	Average wind speed, k and C parameters	NO
Turbines election: VESTAS VT105-3.3 MW and SIEMENS SWT-3.6-120 18 turbines	General characteristics of the wind turbines. Nominal power and power output curve.	YES
Election of the foundations	Jacket foundations	YES
Transport and installation costs of the wind turbines and the foundations	Election of the wind turbine transport configuration	YES
General budget of the external assessor services	Budget on the services provided for the tasks carried out by the external assessor	YES
