The first thing that comes to my mind now that I've just finished this thesis is the support I have received from my family. Basically, I want to thank my parents and my brother for all they have done for me during the period of realization of this study and also the rest of my life.

Obviously, the next memories belong to the tutor of the thesis. I have enjoyed myself so much all the time I have spent with him working in it. But the most important thing for me is that I know without any doubt that I have made a friend.

Finally, I do not forget all the people who have played an important role in my life during this period of time. I am not going to mention all of you because I know I will forget someone. There have been so great moments and also bad ones, but looking back I am sure I will never forget any second of these months. It has been very funny for me sharing a part of my life with all of you.
