

- **red**
The color of roses; most often found in painted facades.

- **brown**
A chocolate-like or wooden color; most often associated with wood, brick, or ten steel, aggregate panels, or painted surfaces.

- **light orange**
The color of orange blossoms; a very common shade for bricks.

- **light brown**
Often appearing with a yellowish or creamy cast; associated with limestone, brick, aggregate panels, and certain shades of unpainted concrete, also common as a painted color.
