11.- Bibliografia

Daganzo 1982. The length of tours in zones of different shapes. Department of Civil Engineering, University of California, Berkeley.

Gilbert Laporte. Metaheuristics for the Vehicle Routing Problem: Fifteen Years of Research. Canada Research Chair in Distribution Management, HEC Montreal

Gilbert Laporte. Classical and modern heuristics for the vehicle routing problem. École des Hautes Études Commerciales and Centre for Research on Transportation, Montreal

Gilbert Laporte. Metaheuristics for the Vehicle Routing Problem: Fifteen Years of Research. Canada Research Chair in Distribution Management, HEC Montreal

Institute of Logistics and Distribution Management. The 1985 Survey of Distribution Costs, Douglas House, Queen's Square, Corby, Northants, U.K.

Observatori de Costos del Transport de Mercaderies per Carretera a Catalunya. Numero 36 Octubre 2005

Sue Abdinnour-Helm and M.A. Venkataramanan 1998. Solution approaches to hub location problems

Heurístics i mètodes exactes per resoldre el VRPTW.

Revisió dels algorismes exactes per a la resolució del VRP.

- 1981. Dynamic Programming with State Space Relaxation (Christofides, Mingozzi, Toth, Networks)
• 2003. Branch-and-cut-and-price (Fukasawa et al., Relatorios de Pesquisa en Engenharia de Produçao)

Es resolen problemes de fins a 135 venedors.

Revisió de diferents algorismes metaheurístics.

• 1989. First Tabu Search imlementation (Willard, M. SC. Thesis, Imperial College)
• 1991. First verison of Taburoute (Gendreau, Hertz, Laporte, Tristan I Conference)
• 1993. Tabu Search (Taillard, Networks)
• 1994. Taburoute (Gendreau, Hertz, Laporte, Management Science)
• 1996. Ejection chains (Rego, Roucariol, Meta-heuristics: Theory and Applications)
• 2001. Unified tabu search algorithm (Cordeau, Laporte, Marcier, Jounal of the Operational Research Society)
• 2003. Granular tabu search (Toth, Vigo, INFORMS Journal on Computing)
• 2003. Very large neighbourhood search (Ergun, Orlin, Steele-Feldman, working paper, MIT)
12.- Bibliografia addicional

Llibres

Articles

A hybrid multiobjective evolutionary Algorithm for solving vehicle routing problem with time windows.

Carlos F. Daganzo 1982. The lenght of tours in zones of diferebt shapes. Department of Civil Engineering, University of California, Bekeley.

Vehicle routing problem with time windows.CS399 Independent study. University of Bridgeport Department of Computer Science and Engineering. Student: Vladimir Vacic Adviser: Tarek M. Sobh,Ph. D.
