GREETINGS

First of all I would like to thank Dr. Fabio Coccetti and Dr. Robert Plana the opportunity they have given to me to realize my Master Thesis in LAAS-CNRS. They have oriented me and introduced me to the research world giving me the opportunity to participate in seminars, conferences and to the 5th International School of RF-MEMS. At the same time I would like also thank all the members of the group MINC for their help and support during the entire thesis. They have not only helped me from the academic point of view, but they have also given me the chance to share with them really nice time.

Secondly I would like to thank Dr. Lluis Pradell Cara (TSC-UPC) for the confidence he has deposited on me from the first day and also for the effort he has done so as to make the stage in LAAS-CNRS possible. At the same time to Marco Antonio Llamas (TSC-UPC) for its patience attending all the doubts I had in my beginnings in MEMS world.

I would also thank the program Erasmus-Socrates, Generalitat de Catalunya (AGAUR), Universitat Politècnica de Catalunya and LAAS-CNRS for his economic support during the 6 month of the project. They have made my stage in Toulouse easier and happier.

A sincerely thanks is dedicated to all my friends and university colleagues which have helped me not only during the Master Thesis, but also during all my studies. Specially, thank you Laia, Celia and Maria for these moments we have shared out of the university that helped me in the hardest moments. Also, thank you Neus, Marc, Sergi, Sara, Fran, Maite, Miquel, Oliver, Joan, Montse and a large etcetera, for your support. Moreover, le deux Franz, Javi, Pili, Cristina, David and another large etcetera, thank you for made this Erasmus unforgettable.

Finally, not for being the last ones you are the less important, thank you to my family for his support. They have been always supporting me so as to guide me in this life. Àngel, Montse, Cristina and Joan Martí, sincerament, moltíssimes gràcies!!
