Pere Andrada was born in Barcelona (Spain) in 1957. He received the M.Sc. and the PhD. degrees in Industrial Engineering from the Universitat Politècnica de Catalunya (UPC), Barcelona, Spain, in 1980 and 1990 respectively. In 1980 he joined the Department of Electrical Engineering, Universitat Politècnica de Catalunya UPC, where he is currently Associate Professor in the Escola Politècnica Superior d'Enginyeria de Vilanova i la Geltrú (EPSVG). He is member of the Electronically Commutated Drive Group (GAECE). His teaching activities and research interests include design, modeling and control of electrical machines and drives.
