Corrigendum

Corrigendum to “Micromechanics of pyramidal indentation in fcc metals: Single crystal plasticity finite element analysis” [J. Mech. Phys. Solids 2008, 56, 3277–3303]

Accepted 9 February 2010

The authors have found the following errors in their manuscript which could not be corrected prior to publication. In Eq. (17), h_s shall be replaced by h_l and τ_1 by τ_s . Also, by virtue of Eqs. (A.8) and (A.11) for $a_{\alpha\alpha}$, the following relation holds for h_l in the modified BW model instead of the constant value of 0.12 MPa reported in Table 3:

$$h_l = \frac{\mu}{2K} [\kappa_{\alpha\alpha} \ln(b\sqrt{\rho^{(\alpha)}})]^2.$$

where $\mu\kappa_{\alpha\alpha}^2/2K \approx 0.12$.
