

WELCOME ADDRESS

I am delighted to welcome all the PhD students, Postdoc researchers, advisors, experts and attendees participating in the 6th BSC Severo Ochoa Doctoral Symposium.

The goal of the event continues to be providing a framework to share research results of the projects developed by PhD thesis that use High Performance Computing in some degree.

The symposium was conceived in the framework of the Severo Ochoa Program at BSC, following the project aims regarding the talent development and knowledge sharing. Keeping that in mind, the symposium provides an interactive forum for PhD students considering both the ones just beginning their research and others who have developed their research activities during several years.

As a consequence, I highly appreciate the support provided by BSC and the Severo Ochoa Center of Excellence Programme that make possible to celebrate this event.

I must add that I am very grateful to the BSC directors for supporting the symposium, to the group leaders and to the advisors for encouraging the participation of the students in the event. Moreover, I wish to specially thank the keynote speakers David Bueno i Torrens and Jeffrey Vetter and the for their willingness to share with us their knowledge and expertise.

And last but not least, I would like to thank all PhD students and Postdoc researchers for their presentations and effort. I wish you all the best for your career and I really hope you enjoy this great opportunity to meet other colleagues and share your experiences.

Dr. Maria Ribera Sancho
Manager of BSC Education & Training
