Excmo. Don Julián,

Allow me to thank you for sending me the regalia in which I received the doctor honoris causa of your University in February.

I have now retrieved the packages from the customs office at Kennedy airport. They have arrived in excellent condition, and the toga and beret fit perfectly.

It was very kind of you to make me a gift of the regalia. I am sending copies of as many of my Spanish publications as I can find so that they may be incorporated into your library.

As you may know, we are having a very fine exhibition of the drawings of Antonio Gaudí here in New York, thanks to the efforts of Professor Bassegoda at retrieving them. I will see that you are sent a catalogue of the exhibition. I enclose a recent review of it.

It was a great pleasure to meet and talk to you, and I hope that we will be able to continue our conversation on another occasion.

Sincerely,

George R. Collins
Professor of Art History
