

# VICUS AUGUSTANUS | Un giardino nel bosco

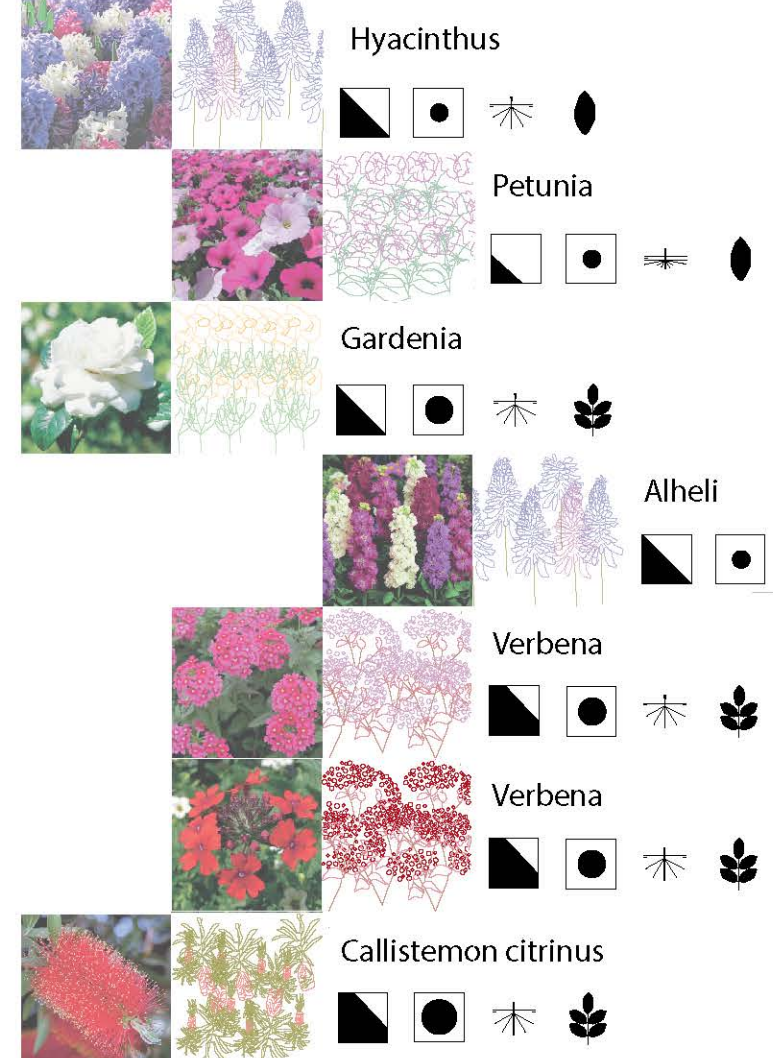

Formant part del Parco Mosaico di Ville, el Vicus Augustanus es rehabilita prenent la forma d'un gran jardí en el bosc.

Per mitjà de les estratègies Restauratio i Instauratio, es Restaura vegetació, recorreguts i usos, ja existents en la època romana adaptant-los al temps actual, i s'instaura de nous. Permetent així, realitzar els vestigis, gaudir del espai i al mateix temps poder llegir com era en el seu passat.
