Table 1 Summary of expenses.....	3
----------------------------------	---

Budget

This document includes the expenses related to the project. As the project consists on a study, the only considered expenses have been the working hours and software licenses. Electric power cost has been neglected as all the work has been developed with just a computer. The personnel costs consist of only one employee with an assumed salary of 25 €/h. The number of working hours come from the final organization described in the project charter.

The following table shows a summary of the expenses.

Concept	Price
Matlab student license	85 €
GiD license	550 €
SolidWorks student license	- €
Office student license	69 €
Working hours (338h)	8.450 €
Total cost	9.154€
